

Northern Yosemite EAA Chapter 1337

The Experimental Aircraft Association is dedicated to making flying more fun for everyone involved. Our chapter reaches out to people of all ages, beginning with the youth ages 8 through 17 years, whom we call *Young Eagles*, through adults of all ages.

The EAA offers something for everyone from building aircraft to flying. Chapter activities include: BBQ/potlucks, builder clinics, safety seminars, tours, poker runs (fund raisers), and Young Eagle rallies.

Young Eagles - Ever wonder what it might feel like to lift off the ground in a small plane? Ever wonder what it would feel like to be as high in the sky as a bird? The EAA has a Youth Program for boys and girls between the ages of 8 and 17 called Young Eagles. This program introduces young people just like *you* to many aspects of aviation including becoming a pilot, actually working on aircraft or even building your own airplane. That's right, building your own airplane!

The first step is to attend our next Young Eagles Rally or Chapter event. Everyone is welcome!

Young Eagles visit the Blankenburg Hangar

Builders - If you were to think about homebuilt aircraft, you might think of people such as Orville and Wilbur Wright who are probably the most recognized builders of an airplane. Today, many thousands of homebuilt aircraft fly throughout the world and many thousands continue to be designed and built. All Chapters throughout the EAA organization share this excitement.

EAA Chapter 1337 Purpose

Promote, encourage, and facilitate an atmosphere where all are welcome to join-in and become a part of recreational aviation.

Promote, encourage, and foster an environment that celebrates and nurtures the participation of families and the spirit of volunteerism within the world of recreational aviation.

Promote, encourage, and facilitate an environment that fosters safety and high standards in the design, construction, restoration, and operation of all types of recreational aircraft.

Promote, encourage, and facilitate recreational aviation activities that provide educational opportunities.

Promote a positive, productive, and cooperative relationship between the Chapter and those governmental agencies and private enterprises that provide aviation services and facilities to the benefit of members of the Chapter.

Promote, encourage, and facilitate membership in the EAA (Experimental Aircraft Association Incorporated).

Support and promote the mission, vision, goals and objectives of the EAA (Experimental Aircraft Association) through programs and services within the Chapter family.

Have fun!

EAA Chapter members are a diverse group of people because they have different backgrounds and their interest in aviation varies widely. Some of those interests include:

- Aircraft building and ownership
- Flying of all types
- Helping to organize functions such as poker runs, aviation seminars, Young Eagles Rallies, etc.
- Reaching out to the communities youth to promote aviation
- Aviation collecting, education, careers, business ventures, etc.
